Project Title: RAG-Based Customer Support Assistant with LangGraph & HITL

1. Introduction

RAG combines retrieval and generation for accurate responses.

2. Workflow

Query → Retrieve → Generate → Respond

3. Design Decisions

Chunk size: 800, HuggingFace embeddings used

4. HITL

Used for handling complex queries

5. Challenges

Accuracy vs speed trade-off

6. Future Enhancements

Multi-document support, UI, deployment
